

Sublimation printing at home.

Brother SP1

Ideal for artists, creators, designers, and crafters. The power of customisation is in your hands with the compact Brother SP1 Sublimation Printer. Print onto a sheet of sublimation paper, then use a heat press to transfer the design to your chosen product such as T-shirts, totes, mugs, travel cups, sweaters, and homewares. Print designs up to 215 x 355mm in high-quality, vibrant colours via Brother's free Artspira editing and design app or your computer and printer driver. Get started straight out of the box, with the included printer cartridges and sublimation printer sheets. Heat press required (additional purchase necessary).
